EDUCATION

KIT - Kalaignarkaranidhi Institute of Technology , Coimbatore	2023-2027
<i>Bachelor of Engineering - Artificial Intelligence and Machine Learning</i>	
Coursework : Artificial Intelligence,Machine learning ,Deep learning,Neural Networks,Data Structures	CGPA: 7.52/10
HIGHER SECONDARY -[Nirmala Matha Convent Matric.Hr.Sec School]	75%

EXPERIENCE

Machine Learning Intern – EDU TANTR

- Successfully completed a **Machine Learning internship program** at EDU TANTR. [JUNE 2025 – JULY 2025]
- Gained **practical exposure to real-world professional work environments**.
- Actively participated in assigned tasks related to **Machine Learning concepts and applications**.
- Developed foundational understanding of **ML workflows, data handling, and model building**.

PROJECTS

IOT - Personalized Medicine Remainder

[SEPT-2025]

- Developed an intelligent IoT-based system that reminds patients to take prescribed medicines on time. Integrated NodeMCU with sensors and cloud connectivity for real-time medication tracking.
- Designed a user-friendly interface to send notifications via mobile or Telegram at scheduled times.
- Implemented a database to store patient schedules and automate dose reminders.
- Ensured reliability through fail-safe alerts and missed-dose detection logic. Aimed to improve patient adherence and healthcare efficiency through personalized reminders.

DNN - Pneumonia Detection

[OCT-2025]

- Developed an AI model to detect pneumonia from chest using Deep Neural Networks.
- Integrated patient lab reports to enhance diagnostic accuracy and reliability.
- Applied data preprocessing and augmentation for improved model performance.
- Trained and validated the DNN for binary classification of pneumonia and normal cases.

Student Grade Prediction (Linear Classification)

[NOV-2025]

- Developed a Flask-based Student Performance Analytics Dashboard to automate grade calculation and result processing. Implemented data cleaning and scoring logic using Pandas to evaluate attendance, assignments, and subject marks.
- Built interactive dashboards showing pass/fail analytics, top performers, and subject-wise performance distribution.
- Added intelligent search functionality to retrieve detailed student profiles with subject-wise marks and final grades.

TECHNICAL SKILLS

- **Programming Languages:** C, Python
- **Web Development:** HTML, CSS, JavaScript
- **Tools:** Power BI,MongoDB, Rest API,Crew AI
- **Core Concepts:** Data Structures and Algorithms, OOPS
- **Tech Stack:** React, Git-Github

CERTIFICATIONS

- **Exploratory Data Analysis in AWS** - Coursera
- **Generative AI for Everyone** - Coursera
- **Get Started with Python** – Coursera
- **Supervised machine learning** – Scaler topics
- **Effective Problem-Solving & Decision-Making**
- **Agentblazer champion** – Salesforce trailhead
- **AWS academy Graduate-Cloud Foundation Badge**

ACHIEVEMENTS

- Achieved a max rating of 1572 in rated contests [CodeChef](#).
- Earned Diamond badge in 1000 problem solving,Silver badge in contest and Diamond badge in Daily streak in Codechef.
- Certified in '[Design Thinking](#)' by NPTEL - Government of India-recognized MOOC platform.
- Presented paper “Eldercare AI Watch:AI-Enabled Wearable System for Continous Elderly Health Monitoring,Fall Detection and Emergency Response”at ICCSS’25,School of Computing,Rathinam Technical Campus [OCT-2025].

CODING ODYSSEY

- [CodeChef](#)- Max rating - 1572 | Position : 2 Star | Problems : 1000 | Global Rank in Codechef : 19659
- [Leetcode](#)- Max rating - 1655 | Solved problems: 250+ | Top 23.56% globally | Badges : 4 | Highest Rank : 1655
- [Codeforce](#)- Max rating - 1155 | Solved problems: 130+ | Rank : newbie.
